OBJECTIVE

I am looking forward a career as a junior web developer. I am passionate about learning new technologies and working with inspiring and motivated people.

SYNOPSIS

I am working at the Hellenic Navy as an Electronic Technician with more than 9 years of experience. I am specialised on marine radar and naval tactical systems.

Moreover, I am an IT professional and Networks administrator with experience in Microsoft Windows Server 2008 and CISCO equipment. Since 2018, I have focused in Software Development as a full-stack Developer working with ASP.NET MVC 5. Currently, I am improving my JavaScript skills and taking courses for the CCNA v7 certification.

I enjoy problem solving challenges and creating new things. That always motivates me to learn more and improve myself. My motto in life is "Always trying to be a better version of yourself".
